

IN THE CLAIMS

Please amend the claims as follows:

1.-20. (Canceled)

21. (Withdrawn) The method according to claim 32, further comprising:  
determining if the available number of the products is equal to zero; and  
issuing instructions to stop the broadcasting when the available number of the  
products equals zero.

22. (Withdrawn) The method according to claim 32, further comprising:  
determining if an expiration date for the products has passed;  
issuing instructions to stop the broadcasting when the expiration date has passed.

23. (Previously Presented) The method according to claim 32, wherein the order data  
includes a requested quantity of the products.

24. (Previously Presented) The method according to claim 23, further comprising:  
determining if the available quantity of the products is greater than the requested  
quantity of the products; and

transmitting a quantity of tokens to the participant via the mobile radio network  
corresponding to the requested quantity of the products when the available quantity of the  
products is greater than the requested quantity of the products.

25. (Previously Presented) The method according to claim 23, wherein the token  
includes a delivery number.

26. (Withdrawn) The method according to claim 32, further comprising:  
checking a solvency of the participant before transmitting the token to the participant.

27. (Withdrawn) The method according to claim 32, further comprising:  
transmitting a negative decision to the participant via said mobile radio network  
when the token cannot be transmitted to the participant.

28. (Withdrawn) The method according to claim 32, further comprising:  
billing the participant for the product by including a cost of the product in a bill for  
communications costs in the mobile radio network.

29. (Withdrawn) The method according to claim 32, further comprising:  
billing the participant for the product by including a cost of the product in a bill from  
a financial services provider.

30. (Withdrawn) The method according to claim 32, further comprising:  
billing the participant for the product by adjusting financial information stored on a  
chipcard corresponding to the participant.

31. (Withdrawn) The method according to claim 32, wherein the order data includes  
a delivery address of the participant.

32. (Currently Amended) A method for selling products over a mobile radio  
network, the mobile radio network including a plurality of participants and being coupled to a  
sales module, comprising:

broadcasting offer information via the mobile radio network in accordance with a text  
messaging protocol to the plurality of participants in the mobile radio network, the offer  
information including an identification of the specified products being offered for sale and an  
identification of a vendor of the specified products;

storing quantity information in the sales module, the quantity information indicating

~~an~~ a limited available number of the specified products provided for sale by the vendor;

receiving an order data in the sales module from a participant of the plurality of participants via the mobile radio network in response to the broadcasting, the order data including a request for a product of the specified products and an identification of the participant;

confirming by the sales module that the limited available number of the specified products is greater than zero;

generating by the sales module, based on the confirming, a token as an unambiguous certificate exchangeable for the product of the specified products being offered for sale;

transmitting the token and the identification of the participant by the sales module to the vendor;

transmitting the token by the sales module to the participant via the mobile radio network in accordance with the text messaging protocol; and

adjusting the quantity information in the sales module based on the token.

33. (Previously Presented) The method of claim 32, wherein the product includes at least one of goods and services.

34. (Withdrawn) The method of claim 33, wherein the product is an admission to an event.

35. (Previously presented) The method of claim 32, wherein,  
the text messaging protocol is a SMS protocol,  
the broadcasting includes transmitting the offer information in multiple SMS short messages to the plurality of participants, and

the transmitting of the token to the participant includes transmitting the token in a SMS short message to a mobile communications device of the participant.

36. (Withdrawn) The method of claim 32, wherein,  
the text messaging protocol is a USSD protocol,  
the broadcasting includes transmitting the offer information in multiple USSD text messages to the plurality of participants, and

the transmitting of the token to the participant includes transmitting the token in a USSD text message to a mobile communications device of the participant.

37. (Withdrawn) The method of claim 32, further comprising:  
storing the token in a removable chipcard of a mobile communications device.

38. (Withdrawn) The method of claim 37, further comprising:  
decoupling the removable chipcard from the mobile communications device; and  
coupling the removable chipcard to another device to obtain the product.
